Put social to work

The screenshot displays the Office 365 social interface for user Lori Penor. The top navigation bar includes links to Outlook, Calendar, People, SocBrand, Documents, and Sites. The user's profile is shown on the left, with a 'Share with everyone' section and a 'Start a conversation' input field. The main feed shows posts from Lori Penor and Shu Ito, with callouts for 'Ask questions' and 'Post updates to let your colleagues know what you're working on'. The right sidebar features a 'Search people and posts' bar and a 'Following' list with counts for people (225), documents (15), sites (3), and tags (5). A callout for 'Follow people, documents, sites and tags' points to the following list.

The screenshot displays the Microsoft Office 365 SharePoint interface. At the top, the navigation bar includes 'Office 365' and tabs for 'Mail', 'Calendar', 'People', 'Newsfeed', 'Documents', and 'Sites'. The user profile 'Steven McQueen' is visible on the right. Below the navigation bar, the 'BROWSE' tab is active, showing the 'Files' library. The main content area displays the 'Contoso Architecture' site with a list of documents. A callout box points to the 'new document' button and the 'drag files here' text, stating 'Drag and drop content into SharePoint'. Another callout box points to the 'Building Better Windmills' document, stating 'Live document previews'. A third callout box points to the 'Shared with' section, stating 'Track who you're sharing with'. A fourth callout box points to the 'EDIT', 'SHARE', and 'FOLLOW' buttons, stating 'Edit, share or follow documents with one click'.

The screenshot shows the Microsoft Office 365 interface with a 'Share' dialog box open for a document titled 'Building Better Windmills'. The dialog box has a title bar 'Share 'Building Better Windmills'' and a close button. It shows the document is 'Shared with Yong Rhee, Tom Ham, Maria Cameron and 4 more' with a 'View everyone' link. The 'Invite people' section has a text input field 'Type names or email addresses' and a permissions dropdown set to 'can Edit'. Below this is an optional text area for a personal message. At the bottom, the 'Require sign-in' checkbox is checked, and there is a 'SHOW OPTIONS' link. The background shows the 'Contoso Architecture' site with a list of documents and a table of users and their review status.

The screenshot shows the Office 365 interface for the 'Contoso Architecture' site. The left sidebar contains navigation links: Home, Notebook, Documents, Recent, Calendar, Tasks, Team mailbox, and More apps. The main content area displays a 'Green design team project summary' with a timeline from July 2011 to July 2012. A task 'Finish the "green deck"' is highlighted, with an annotation 'Integrate tasks from Microsoft Project' pointing to it. Below the timeline, a table lists documents related to the project. An annotation 'Manage projects with shared calendars and timelines' points to the 'Calendar' link in the sidebar. Another annotation 'Edit SharePoint lists inline' points to the 'EDIT LIST' button in the top right of the timeline area.

Top 10 benefits

1

A new and **simplified user experience**. Drag and drop content into document libraries, see live previews of your content, edit lists inline and create sites in a few simple clicks. SharePoint 2013 puts you in control.

2

A new way to work together. **New social features** let you share what you're working on, ask questions and keep track of what your colleagues are doing. SharePoint 2013 puts social to work.

3

Grow your network. **New search profile features** help you connect with people across your organization and easily discover interests, past projects and documents they've worked on. SharePoint 2013 helps you find answers to questions and discover experts you never knew existed.

4

Store and sync your documents. SkyDrive Pro sync's your content in SharePoint to your desktop, so if you're working remotely or about to jump on a plane your docs are just a mouse click away. SharePoint 2013 keeps your content in sync from virtually anywhere.

5

Share your stuff. A new simple way **to share documents** from Office or SkyDrive Pro with people **inside and outside of your organization** puts working together with anyone just a couple of clicks away. SharePoint 2013 helps you get stuff done.

6

Keep **your teams in sync**. Set up a new team site in minutes with wizards built into SharePoint to help you set permissions, track meeting notes and bring together all your team's email and documents in one place. SharePoint 2013 makes teamwork easy.

7

Keep your **projects on track**. SharePoint helps you organize your projects and tasks giving you a view into upcoming deliverables across SharePoint, Outlook and Microsoft Project. SharePoint 2013 helps you prioritize and get stuff done.

8

Find what you're looking for. SharePoint helps you quickly customize and narrow your search to deliver more relevant results, and also provides recommendations on people and documents to follow. SharePoint 2013 makes it easy to discover answers and take action.

9

Take SharePoint with you on the go. If you're running from meetings or out of the office you can share documents, or update your activity feed from **your mobile** phone or tablet. SharePoint 2013 keeps you connected from virtually anywhere.

10

Do more with **SharePoint apps**. The SharePoint store is an online marketplace to discover and install apps that's designed to work with SharePoint. If you need a specific business solution to help you get even more out of SharePoint the store is just a click away.

Thank you
